# ABOUT US

## *Better for you, Better for the earth*

*Earth's Natural Alternative's mission is to provide an earth-friendly & people-friendly alternative to disposables. ENA's driven commitment to its purpose has led to continued innovative alternatives in daily products that are safer for us and better for the home we call Earth. That means to minimize plastic waste and less to the landfills.*

*Centrally located in Chicago, we have multiple distribution centers across the United States to serve customers large and small.*

*Going green does not mean you have to compromise on quality or performance. Our products meet or exceed the quality standards of national leading brands in their respective categories, green or non-green*

# WE CARE, WE ACT

## **Product Impact**

Earth's Natural Alternative boasts a complete line of eco-friendly products that meet the needs of today's eco-conscious consumers. ENA's product line is eco-friendly, made from annually renewable plant fibers that are ultimately decreasing waste in our landfills and leaving no harmful residue in the environment.

In recent years, ENA's extended product innovations have led to countless new items ranging everywhere from picnic packs to premium tree-free bath tissue. ENA's growing success has led to a far-reaching positive impact far beyond anything we previously imagined. Furthermore, ENA is excited to announce its support to Ocean Conservancy, a 501(c)3 nonprofit working to protect the ocean from today's greatest global challenges.

## **We Care, We Act**

In order to support the amazing progress that Ocean Conservancy has made over past years, ENA has vouched to donate a portion of each purchase to go towards Ocean Conservancy as they continue collecting millions of pounds from our oceans. Additionally, ENA is hopeful and tremendously excited for potential future collaborations with other purpose-filled organizations.

## **How to Accelerate the Mission**

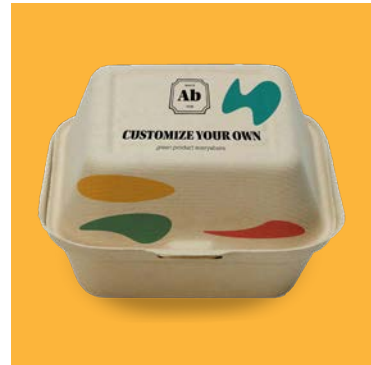

We would love for you to embark on this journey with us. We hope you will find our products a meaningful alternative to traditional plastic and paper disposables.

# PRIVATE LABEL & CUSTOMIZATION

Whether you are looking for eco-friendly products for your business or a special event, we are here to help!! Our innovative and energetic design team will work with you on styles, sizes and embossing that best represent your brand.

Let us bring your ideas to life.

Compostable Fiber To-Go Containers
